

Over the last couple of decades, 44 congregations and our two camps have benefited from the kind of help ECS can offer. Much of this was in form of grants to help them develop and/or expand programs that are serving the least, the last and the lost in your communities.

We cannot continue to help you without your participation. Our grants come out of our Ministry Development Fund. There are many ways to grow this fund; through direct donations, monthly giving, legacy gifts, through the Foundation, and our Advent Appeal. We are grateful for all who have contributed in the past and encourage you to participate in our appeal again this year. This is how you help us help you serve Christ by serving others.
